

Frendz Hapunan - A4 Print & QR Sizing Ruler

Print at 100% / "Actual size". In the print dialog, turn OFF "Fit to page" / "Shrink oversized pages". Then measure the teal 100 mm bar below with a physical ruler to confirm the scale is exact before you design the poster.

QR size vs. scan distance

Rule of thumb: a QR scans reliably from roughly 10x its width. So 30 mm ~ 0.3 m, 40 mm ~ 0.4 m, 50 mm ~ 0.5 m. For a table/wall poster scanned from ~0.5-1 m, use 50 mm or larger. Below is the real Frendz QR at each size - print this page and test-scan them from where guests will stand.
